Esperti in ricerca e sviluppo in ambito nautico e navale

Azimut Benetti R&D activities

Name and Surname of the Trainee	Paolo Bosi	
Name and Logo of Hosting Institution	Azimut Benetti SpA	
Individual Training Project	To train a professional figure of expert in "Noise and Vibration Analysis", with particular regard to improving the interior comfort of the boat, without sacrificing the performance of the product.	
Document code	O.2-M.B-T.1	
Issuing date	10/12/2021	

FINCANTIERI

GROUP

Document title [Azimut Benetti R&D activities](#)

Document code O.2-M.B-T.1

Distribution Project only

Date	Pages	Trainee	Hosting Institution Tutor	CNR-INM Tutor
10/12/2021	2+89	Paolo Bosi	Gilberto Francesini	Daniele Dessi

The activity described in this publication was funded by the TRIM Project — Technology and Industrial Research for Marine Mobility — Coordinated by the National Research Council and funded by the Ministry of Education, University and Research within the framework of the National Technology Clusters initiative.

Contents

Summary	3
1 Introduction	4
1.1 Promoting Institution	4
1.1.1 Institute of Marine Engineering	4
1.1.2 TRIM Project	5
1.2 Hosting Institution	6
1.2.1 R&D Department	7
1.3 Individual Training Project	7
2 Noise and vibrations	8
2.1 Source and transmission	8
2.2 Noise reduction	14
2.2.1 Sound-absorbing materials	15
2.2.2 Sound-insulation materials	15
2.3 Vibration reduction	16
2.3.1 Torsional coupling	18
2.3.2 Shaft line joint	18
2.3.3 Mounts	18
2.4 Rules	21
2.5 Troubleshooting	21
2.6 Azimut-Benetti Group activities	23
2.6.1 Insulation plan and booklet	23
2.6.2 Floating floor	28
2.6.3 Vibroacoustic analysis	30
2.6.4 Comparison between two different hull-number yachts	43
2.6.5 Structural mobility test	46
2.6.6 Outcome	49
2.7 University of Pisa TRIM activity	51
2.7.1 Measurements of architectural and building acoustics parameters	52
2.7.2 Acoustic camera measurements	53
2.7.3 Measurement equipments	53
2.8 National Research Council TRIM activity	58
3 Basic Design	63
3.1 Weight distribution	64
3.2 Tonnage	68
3.3 Boat launching	73
3.3.1 Launching with travel lift	73
3.3.2 Stern-first launching	73
4 Environmental sustainability	76
4.1 Underwater noise	76

4.2	Green propulsion	78
4.2.1	IMO	78
4.2.2	EPA	81
4.2.3	Comparison between IMO and EPA	83
4.3	Life Cycle Assessment	85
	Bibliography	88
